

BC/BP Residency trained emergency physician-Tufts Medical Center Boston

Seeking an exceptional, dedicated BC/BP, residency trained emergency physician for a rare opportunity to join our Department of Emergency Medicine at Tufts Medical Center, the principal teaching hospital of Tufts University School of Medicine in the heart of Boston.

We are a Level 1 Adult Trauma Center, Comprehensive Stroke Center and offer Advanced Cardiac Care with PCI and ECMO services. In addition to our acute care area, we operate a Pediatric Emergency Department and nested ExpressCare areas.

Our work environment is fast-paced and will challenge and inspire you. Our team of physicians, residents, nurses, APPs and support staff are exceptional. You will teach residents, medical students and PA students working side-by-side in the ED. Teaching and research activities abound and we encourage and support your professional growth both inside and outside the Medical Center.

If you are an experienced Emergency Physician seeking a challenging and rewarding role, we want to hear from you!
